Measuring instrument inclusively:									
Determination and displaying of settlements and deformation modulus E _{vd}		●	●	●	●	●	●	●	●
Displaying the settlement speed and path-speed-ratio (s/v)		●	●	●	●	●	●	●	●
Large grafic display (15 rows), Displaying the settlement curves user-defined settings, simplest menu navigation, illumination >> All the information at a glance, more than 1000 tests with one battery charge						●	●	●	●
Menu navigation: many languages selectable (German, English, Polish, Czech, Spanish, French, Russian, Lithuanian, Chinese, Serbian, Netherlandish.)		●	●	●	●	●	●	●	●
Internal Memory		● 200 test series	● 200 test series	● 200 test series	● 200 test series	● 1000 test series	● 1000 test series	● 1000 test series	● 1000 test series
Signal tone when ready for measurement						●	●	●	●
USB interface + USB stick with application movie, instruction manual for comfortable data transfer						●	●	●	●
GPS-connection to localise the measuring points		○	○	○	○	○	○	○	○
Thermal-Printer to print out the measured data and the settlement curve (path/time-graph)		○	●	○	●	○	●	○	●
Software for comfortable evaluation of the stored data via PC/Laptop		○	○	●	●	○	○	●	●

● standard ○ optional
