NON-OVERLAP

TS96

The TS96 addresses the needs of the professional contractor looking for high production finishing. The reduced maintenance, low profile ride-on power trowel features a responsive steering system and heavy duty gearbox. The TS96 delivers high rotor speeds suited for finish applications, yet ideal for float pan operations.

Features

- ✓ Heavy duty gearbox provides lower operating temperature and longer life.
- ✓ Variable speed clutch and pulley drive system produces consistent blade speed up to 180 rpm.
- ✓ Dependable air-cooled Briggs & Stratton 35 hp engine provides consistent power.
- ✓ Low machine profile offers increased machine stability and a better view of the work surface.
- ✓ Flip-up end rings facilitate efficient blade changes.
- ✓ Flip-up seat reveals a sturdy lifting bale for ease of transport and to facilitate engine maintenance.
- ✓ Twin stick, multi-directional steering system provides precision control and full maneuverability.
- ✓ Engine hour meter to monitor periodic maintenance, adjustable operator's seat for greater comfort, and a set of four 50 watt lights to improve visibility in poorly lit conditions are standard features.

Ride-On Power Trowel
